PROJECTS

Urban Eldorado |Repo: https://tinyurl.com/jjvw4sc | Deployed: https://tinyurl.com/538xeeb6
Front end developer

- This application breaks down the census data to show statistics about the city you type into the search.
- This was my first big project working with JavaScript. I'm proud that after only a month of studying we were able to use a couple of fairly tricky api's.
- This project featured Ajax and JavaScript

CommunityCarShare | Repo: https://tinyurl.com/zebvh7ze | Deployed :
https://tinyurl.com/2mzzmr3y
Back end developer

- It's a database where people can upload their cars as a community ride share.
- Primarily I added the delete button onto the database. This one was interesting because it gave us a solid foundation in MySQL.
- This project featured MySQL and JavaScript.

Project Name | Repo: https://tinyurl.com/52nbyt6s | Deployed: https://tinyurl.com/tzsmtu9b
Full stack developer

- It allows you to organize a database alphabetically and sort through it with a search bar.
- I wrote this whole one up for class. It was good to practice more with React.
- This project featured Axios, React.js and JavaScript.

EDUCATION

Certificate, Full Stack Web Development - University of Denver   Denver, Co
